Bridging the Divide: Virtual Town Hall

Virtual Engagement Toolkit

Friday October 1st, 2021
10:00AM - 12:00PM EST

Zoom Meeting Link: <https://partners.zoom.us/j/84195214491>

What mix of approaches works best to build trust, increase comfort with technology, and access high quality care?

How do we get the word out?

Please join us to discuss best practices to use technology, digital tools, and telehealth to increase access to mental health care and cancer care. We are coming together as peers, persons with lived experience, researchers, clinicians, and caregivers – **all are welcome!**

Featuring voices of peers, caregivers, and older adults affected by mental illness particularly those from Latino/a communities, older adults, and individuals in group settings.

We will also be celebrating our **Bridge Award winners** in recognition of their efforts to champion mental health equity.

Breakout Room & Translation / Closed Captioning in Spanish

This event is free and open to all.
